Solar for Homes

Hear what people are saying...

“Borrego Solar gets an A+. They were efficient, competent and fast. I now pay \$4.00 a month for PG&E.”

Howard Davis
San Jose, CA

“From the first contact, everyone was professional, helpful and prompt getting the system up and running.”

Dwight Pataconi
Ramona, CA

“I was impressed with the professionalism, kindness, integrity, intelligence and competence of everyone at Borrego. You were all great, and I am thrilled with my new power plant.”

Jim Young
Berkeley, CA

Your neighbor's electric bill just went way down... and the market value of their house just went up.

Your neighbor just installed a solar electric power system from Borrego Solar.

Rising electric bills and the housing market downturn have left many homeowners caught in the middle. A system from Borrego Solar offers immediate, positive, permanent answers to both of these problems, and a great deal more:

REDUCE YOUR ELECTRIC BILL

A solar electric power system can dramatically lower your electric costs now, and provide you with long-term protection against the rising cost of electricity. In many cases it can eliminate your bill, down to only the minimum charge.

GET REBATES AND TAX CREDITS

A solar electric power system earns you immediate government rebates and tax credits that can reduce the cost by up to 30%. State and Federal programs make these systems affordable for almost everyone.

INVEST IN YOUR FUTURE

A solar electric power system yields returns that are competitive with the stock market without the volatility; and it offers protection against rising electric rates.

INCREASE YOUR PROPERTY VALUE

A solar electric power system makes your home more attractive to buyers. A bill-free source of electricity can be a powerful attraction to buyers—and a powerful advantage that you have as a seller.

A study in *Appraisal Journal* found that for every utility-bill dollar saved annually because of an improvement, you gain \$10 to \$20 in property value.

PROTECT THE ENVIRONMENT

Installing a solar electric power system is one of the most important steps you can take to battle global warming and help protect the environment. These systems offer clean energy generation that is extremely reliable and durable.

Become part of the Solar Solution.

Your neighbor just did.

About Us

AN INDUSTRY LEADER

Borrego Solar is one of America's leading designers and installers of solar electric power systems. We help homeowners, businesses, schools and government agencies achieve tremendous savings in their electric bills, aid the environment and lessen their dependence on fossil fuels.

CUSTOMIZED SOLAR SOLUTIONS

We analyze your home's energy needs and create a Solar Solution tailored specifically for your home. Our teams of experienced installers use only the industry's best equipment and materials.

COMPREHENSIVE CUSTOMER SERVICE

We manage all permitting and inspection procedures and submit all of the applications for state rebates and Federal tax credits on your behalf.

GUARANTEED RELIABILITY

Our ten-year guarantee offers you complete peace of mind that your system will produce clean, consistent power well into the future. Most solar module suppliers offer a 25-year warranty on their products as well. A Borrego Solar System is the finest you can buy—but our prices are among the most competitive.
